## SKILLS

- Equipment maintenance
- Digital file preparation
- Pattern grading
- Laser operation

## SUMMARY

Skilled Laser Cutting Machine Operator & Pattern Assistant with extensive experience in footwear manufacturing. Expertise in operating CO2 laser machinery, executing pattern grading, and optimising vector designs for production. Prepares high-precision digital files for large-scale production and utilises image tracing techniques for design accuracy. Ensures equipment maintenance and safety standards to enhance operational efficiency.

## EXPERIENCE

November 2021 - Current

**Laser Cutting Machine Operator & Pattern Assistant Vivid Footwear |**  
Bhoirob, Kishorgonj, Bangladesh

- Operated CO2 laser machinery with five years of experience in footwear manufacturing.  
Executed pattern grading, marking, and vector design optimization for production efficiency.  
Prepared high-precision digital files to support large-scale production requirements.  
Utilized image tracing techniques to enhance design accuracy and quality standards.
- Repaired and serviced machinery to maintain good working order, limiting equipment downtime.
- Sorted and disposed waste materials in compliance with safety regulations.
- Attended machine malfunctions to perform emergency maintenance and repairs.

## EDUCATION

2023

**Certificate of Higher Education | Science**
